OPTIONS:

PEDESTAL OPTION:

C-Craftsman Design

P- Prairie Design

Pedestals provide elevation to a RollingPlanter. By elevating the planter, the planter is ergonomically accessible for many who are physically challenged. The heights are designed for walkers and wheel chairs access, normally, 32" in height. Custom heights can also be ordered for taller or shorter individuals. There is no pedestal option for the CAFE series, and it is not recommended for the PU series since they are already at 32" tall. Pedestals are fully assembled and Lift/Drop under the planter to complete. Must be shipped LTL Freight.

PED23 (For M23)

PED24: (For M24 and times 2 for M28)

PED26 (For M26)

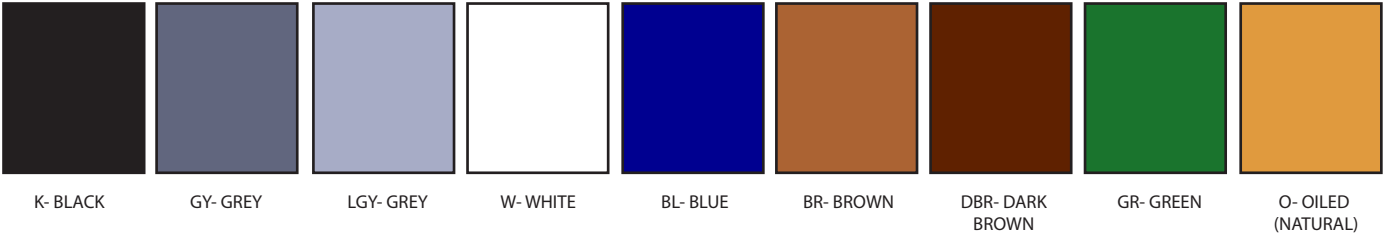

PED Special (Custom Sizes)

FOR PEDESTALS FOR: M28 (USE 2x PED1) M38 & M48 (USE 2x PED2:

TRANSPARENT STAIN OPTION:

(NO PAINT) Standard planters come in natural finish unless color stain option chosen.

Stain Colors: Grey, Light Grey, Black, Dark Blue, Light Brown, Dark Brown, Dark Green and Oiled.
Canola oil, vinegar and iron oxide mixture. (Swatches only approximates of transparent stain color).

VPB-T4: 4' Seating Bench or Potting Table w/Rails

VPB-T6: 6' Seating Bench or Potting Table

IRRIGATION FEED OPTION

The irrigation feed option or Snorkel, provides a clean channel to feed water tubes into the planter. Prevents damage to the liner and possible frame. Allows the tubes to be changed out easily without disturbing soil.

IR: Irrigation Snorkel (For Craftsman and Prairie Planters)

IR: Irrigation Snorkel (For Prairie Urban Planters)

SELF WATERING SUBTERRANEAN RESERVOIR OPTION

The self watering option is an contained undersurface porous cavity. The cavity is created to allow water to be held in a reservoir. The natural capillary action of the soil delivers water into the growing medium keeping your planters consistently moist. An over flow drain is on the bottom of planter and two filling accesses are on top of box. One of the accesses is used for a water measuring mechanism. Planters over 7.5' boxes have multiple cavities units. Minor Assembly Required. (Custom Order)

SWC: Cafe/Balcony Planters

SWS: Planters up from Cafe to 2.5' x 4,"

SWM: Planters from over 2.5' x 4' and up to 4' x 4'

SWX: Planters from over 4' x 4' and up to 4' x 6'

SWXL: Planters from over 4' x 6' and up to 4' x 8'

AQUAPONIC SOLUTION OPTION

Any planter can be made into a pond for fish, aquatic plants and other aquatic life. In order to create this environment, a rubber stopper is required to plug each drain holes. RollingPlanter can offer a floating raft system that allows for plants roots hang down and to thrive off the mineral rich water below. (Custom Order)

STP: Stopper for drains (Many planters have more than one drain, please consult)

IMPORTANT NOTES

All prices subject to change without notice, do not include shipping or sales tax and are FOB, workshop in California. There is a \$800 minimum order on all planters that are shipped LTL. Schools, hospitals, hotels, residents and other limited access areas incur higher shipping rates. All planters priced for commercial trade. Volume discounts are available.

Weights provided on soil/gravel requirement sheet should be reviewed for potential rooftop, balcony and deck installations. Prior to any rooftop, balcony or deck installation, one should consult an architect or engineer to assure the structural load capacities will support both planters and people at the same time (live load).

Fixed position planters with the same above designs, options and heights are available. Fixed position planters come with tall wooden sleds and plastic pads. The pads allow the planters to stay off the ground and if necessary, be moved with a lifting devices, such as a forklift or a pallet jack. They are priced the same as the mobile version.

LTL: Less Than Truckload. It is the consolidation and shipment of larger commodities that can not be shipped by small package delivery companies such as UPS or the Post Office. At the same time these commodities can not fill a 48 foot tractor truck trailer. All items are fastened on pallets and shipped on tractor trailer trucks. Shipping companies can restrict delivery to residential and limited accessible locations. It is suggested to arrange delivery to a store, shop, restaurant or stand alone commercial location.

Most planters can be made larger with the addition of custom refinements.

Comments and Inquiries are always welcomed.
